Rails at St. Albert

First Freight Delivered in Cathedral Town Yesterday Morning

St. Albert, Sept. 27.—The first freight delivered over the Morinville branch was shipped into the new Brackman-Ker side track yesterday. One car was delivered to Brackman & Ker and another to Woodward, the contractor constructing the St. Albert elevator.

The steel gang has passed St. Albert and is now three miles beyond the town with only eight miles to go to reach Morinville.

Hebert & Perron are making a heavy shipment of merchandise today by wagon road to their branch store at Athabasca Landing.

WILL SHORTEN THE LINE

Ottawa, Sept. 26.—The latest reports to the commissioners of the transcontinental railway regarding the progress of the surveys on the proposed route between Quebec and Winnipeg reduce the total length of that part of the railway to approximately 1350 miles. This is a tremendous cut from the figures announced in the house last session. When Hon. Mr. Emerson intimated that so far as the government was aware the distance would be about 1500 miles.

Ministers Resigned

(Bulletin Special)

Havana, Cuba, Sept. 26.—The resignations of all the members of the Cuban Cabinet were presented to President Palma today. He accepted them, but they will remain in office until after Palma's own resignation has been presented to Congress. A loophole to escape intervention offered by the moderates was presented today through Senator Dolz, who said that if more suitable proposals were offered the moderates, the congressmen might remain in office, and either refuse to accept Palma's resignation or elect a new president and vice-president. It is not believed that Trota will agree to any change in the proposals rejected by the Cuban government. Intervention by the United States is expected by one here, the only question debated being how soon the marines and soldiers will arrive.

A Distinguished Visitor

Mr. Richard Grigg, commissioner of the Majesty's board of trade, London, is a visitor in the city and is spending the day seeing the sights under the guidance of Mr. Chas. Pardee of the Bank of Montreal and the mayor. Mr. Grigg's mission in this country is to look into the possibilities of developing trade between the Dominion and the mother country and incidentally of promoting a preference, either tariff or sentimental, wherever possible. Mr. Grigg is probably the most distinguished authority on trade matters who has visited the city in recent years.

Suspect Foul Play

Inquest Will be Held on Body of Manitoba Harvester

(Bulletin Special)

Winnipeg, Sept. 26.—J. M. Hardaker, a harvest hand, died in Deloraine last week, under circumstances which called for an investigation. An inquest was held on the body, conducted by Dr. R. S. Thornton, and the evidence submitted, went to show that the man had lain in a livery barn in what was supposed to be a drunken stupor for a day and a half and at the end of that time had died. The jury in accordance with the evidence, brought in a verdict to the effect that the deceased had come to his death as the result of drinking, and attributed his death to alcoholism. Evidence has been forthcoming, which leads the authorities to suspect foul play, and tends to throw some doubt on the cause of death. It is said that startling evidence will be forthcoming at the inquest, which has been ordered.

Ten Years for Stensland

(Bulletin Special)

Chicago, Sept. 26.—Paul O. Stensland pleaded guilty in the courts this afternoon upon the charges growing out of the wrecking of the Milwaukee Avenue State bank. He was given on one account an intermediate sentence in the penitentiary with a maximum term of ten years. He was arraigned before Judge Kersten and pleaded guilty on two indictments, one charging that he received a deposit of \$50 after he knew the bank was insolvent, the other charging embezzlement of \$400. On the first indictment he was sentenced to an indefinite period of from one to five years and one to fourteen years to run concurrently making ten years in all. Four hours after Stensland reached Chicago, he was on his way to Joliet prison.

A New Real Estate Firm

A new real estate firm started in business today in the persons of Tull & McClary, who have bought out the business of the well known Green & McLean firm. Mr. J. J. Tull of the new firm, has been in the grocery business in Edmonton for some time and has large local acquaintances. He and McClary, the other member, is a British Columbia man who has had a large experience in mining, timber and real estate on the other side of the range. Mr. Green of the old firm, intends going to the Pacific coast to live, tending going to the Pacific coast to live.

Fernie Strike

Sherman Offers to Order Men Back to Work if Company is Willing

(Bulletin Special)

Fernie, B.C., Sept. 26.—The strike situation here assumed rather a sensational turn today when F. P. Sherman, president of the district union, wrote a letter to the company stating that in order to end the unhappy condition of affairs he would order the men back to work if the company would take them back. It is understood that General Manager Lindsay replied by letter that the "unhappy conditions" had been brought on by the men and that the company at present is not prepared to take them back. He demanded an answer to three questions before negotiations are continued: First: Why did they strike and thus violate the agreement which provided for peaceable methods of settling disagreements; second: Do they admit that the conference between representatives of the company and the union clearly showed that the discrimination clause was tacitly agreed upon; third: Who is to compensate the company for the loss resulting from the strike? Mr. Lindsay in reply to Mr. Biggs' statement of yesterday issued a circular letter today charging him with avoiding the issues and challenging him and his associates to meet him in the presence of the Coal Creek miners. Mr. Sherman claims that Mr. Biggs went beyond his authority in calling the miners out. It is now believed that it is all a mistake about President Mitchell endorsing the strike.

Signs Come Down

Time Limit up Today.—Penalty Thirty Days Hard for Infractions of By-laws.

The fourteen days notice given to business people on the south side of Jasper to remove their over-hanging signs lapses today, and the time limit for those on the north side will expire tomorrow.

When the building inspector distributed the notices it took two days to get around, which explains why one side of the street has a day more grace than the other.

A great many signs are being removed today and before night the over-hanging sign will be almost a thing of the past in Edmonton. So far none of the big electric signs have come down but as they are covered by the bylaw they will undoubtedly be removed without undue delay.

The building inspector stated this morning that there would be no delay on the part of the city authorities to secure an exact and strict compliance with the by-law. The maximum penalty for infringement is \$50 fine and 30 days hard labor.

Shortage of Lumber

Vancouver, B.C., Sept. 24.—The log brokers and millmen are predicting a log famine on the coast during the coming winter and it is expected that when the shortage of lumber pinches the mill's there it will probably result in a rise in the price of lumber for the coming season.

Just now merchantable logs are selling at from \$8 to \$10 per thousand, and the supply is not equal at these good prices. It is estimated that loggers will have but about thirty days more good working weather in the woods. After that time rainy weather will keep the men in the camps much of the time and there will be a material falling off in the output of logs. During the past summer, a shortage of logs was felt at all times. Many mills which were booked ahead with orders would have opened night as well as day but for the fact that they could not secure sufficient logs. At the present time there are few logs in the water.

FOUND DEAD.

(Bulletin Special)
Toronto, Sept. 27.—Donald Ross of Forest, Ont., aged 68, took a room at the Walker house last night and this morning was found asphyxiated in his bed by the bell boy.

Late Despatches

CALGARY HAS NATURAL GAS
Calgary, Sept. 26.—The boring for natural gas has not been in vain, or without encouragement, though the boring is down only seven hundred feet, or thereabouts, about one third the distance that the company is prepared to go. The pressure is already, or is now, passing through a pocket of gas. The pressure is very slight, and not of value as yet for commercial purposes, but it exists. This seems to be a good indication that there is gas below.

WINNIPEG TRAMWAY RUMORS
Winnipeg, Sept. 26.—A rumor has gained credence in the city that the Great Northern will not come into the city via Ross and Pacific Avenue where it has bought property, but that the road will be built through Fort Rouge near the Canadian Northern line. It is said that the reason for this change of plans is that the Canadian Pacific has been trying to stop Hill from using the Ross-Pacific route. This necessitates the crossing of a great many of its spurs built to wholesale houses in the west end of the city.

REVELSTOCK THREATENED

Vancouver, Sept. 26.—During the past few months the Columbia river has swallowed twenty-five acres of the township of Revelstoke, a bustling divisional point on the main line of the Canadian Pacific Railway, about three hundred miles from here and the town is threatened with grave and imminent disaster unless immediate steps are taken to prevent the destruction of the river bank. Where once lay broad acres and flourishing fields, prosperous industries and many homes, now is a rushing, turbulent, restless flood relentless in its grip and increasing in violence and magnitude, month by month.

RECALLS MURDER MYSTERY

(Bulletin Special)
St. Thomas, Ont., Sept. 27.—The Rodney murder, for which no one has been punished, was recalled by the examination for discovery held before D. McLeas yesterday. Miss Eliza Lower, an aged maiden woman of Rodney, was murdered and her body found lying outside the house. Alex. Willis was arrested on a charge of committing the murder, was tried and found not guilty. Willis now brings action against Mrs. Mary Cole for damages for slander, it being alleged that she persistently alleged that Willis is the guilty party.

The Manufacturers Visit.

A meeting of the reception committee, to complete arrangements re the visit of the Manufacturers' Association, was held in the council chamber last evening. Ex-Mayor MacKenzie occupied the chair. The sub-committees reported progress. Arrangements have been made for carriages and automobiles to meet the guests at Strathcona and convey them to Edmonton when they will be driven around the city. In the evening, at 8.30, a reception will be held in the Thistle rink, where refreshments will be served. Citizens can secure tickets to the reception free by calling at the office of the Secretary of the Board of Trade.

A committee consisting of Mayor May, Alderman Morris, K. W. McKenzie and J. H. Morris will go down the line to Red Deer to meet the party. It is probable that Edmonton and Strathcona will co-operate in driving the visitors, the Edmonton rigs assisting in taking them from the train to the Strathcona school, where an exhibit of natural resources will be arranged by the Strathcona Board of Trade.

Union Co. Swindled

Company Handed Over \$225,000 For \$170,000 Property

(Bulletin Special)

Toronto, Sept. 26.—A sensational incident at the insurance investigation today was the evidence of R. Stevenson, who gave it as his opinion that if the allegations were true, that the real purchase price of the Kamloops Lumber Company was \$170,000, the Union Trust Company had been swindled out of \$55,000. It appears that the negotiations in connection with the transaction were placed in the hands of George Fowler, M.P., and \$225,000 actually handed over by the trust company. Peter Ryan had confirmed the rumor at a meeting of the trust company executive that \$170,000 was the real price. Mr. Shepley again complained of Mr. Fowler's absence, although duly subpoenaed to attend the enquiry. Mr. Stevenson, who is a trust company director, intimated that at the conclusion of the inquiry civil action would be taken on behalf of the trust company against those concerned in the deal.

Hunter Shot

(Bulletin Special)

Neepawa, Sept. 26.—While F. A. Vickery and William Young were out hunting in a buckboard a sudden jolt of the rig discharged Young's gun, the charge entering Vickery's side. He was operated on today in the Neepawa hospital and is in a precarious state.

Bachelors' Ball

Young Bachelors. Gave First Dance of the Season in the Rink Last Evening

The Young Bachelors gave the first ball of the season in the rink last evening. Music was furnished by Clarke's orchestra and thoroughly enjoyed by the dancers who incessantly called for encore. Refreshments were served, J. Morion of the Mariaggi, being the caterer.

Those present were: Misses McKenney, Clendenan, Dickson (Fort Saskatchewan), Lynch, Robertson, Matheson, Wishart, McLean, Ferris, Curry, Ross, Cameron, McCawley, McCauley, Graves, MacIsaac, Somerville, McDougall, Scott, Sullivan, Staath, Ross, Boncher, Gascoigne, Wallbridge, Cameron, Greenwood, McAlpine, Nichols, Christian, Webster, McAmmond, Crawford, Lawder, Harford, Perkins, Livingstone, Perkins, Sutherland, Shields, Chatwin, Clarke, Thompson, Peiks, Stevens, Swarbrick, Somerville, Somerville, Boucher, Mid, Theller, White, Trites, McIntosh, Maloney, Evans, Tilen, Murry, Heatherington, Murphy, Dunlop, York, Gibson, Harris, Lawrence, Shanks, Goodridge, Hardwood, Seoble, Mrs. Farquharson, Jamieson, Russell, Charlesworth, Jackson, Swaisland, Griesbach, Mays, McPherson, Hardisty, Norquay, Harrison, Barford, Scott, Morris, Hubbel, Watt, Darling, Fraser, Whitman, McKenzie, Thibaudaud, Almon, Jellet, Creighton, Pardee, McMahon, Harwood, Messrs. Didsbury a Town

Assumes Larger Responsibilities in Municipal Government

On Tuesday last C. Hiebert, M.P.P., accompanied by Geo. B. Sexsmith, overseer of Didsbury, J. E. Stauffer and Oscar Price, two of the most prominent citizens of the village came up to apply to the provincial government for incorporation as a town.

Yesterday the order-in-council was passed, the papers are being issued and Didsbury will be incorporated with its larger responsibilities and an election held within the next thirty days.

The village of Didsbury up to date is bounded by the lines of the north-west quarter of 18, in 31-1. The new incorporation takes in eight other quarters making a perfect square of nine quarters, a mile and a half each way, with the old village quarter exactly in the middle. George Sexsmith, who is thoroughly familiar with the conditions, states that the population within the new boundaries will be not less than 500 and that the assessable property will total close to \$300,000.

Only one property holder, Dr. F. A. Lackner, protested against the incorporation.

Judging by the sentiments expressed by Messrs. Sexsmith, Price and Stauffer, Didsbury is certainly going to be a public-ownership town. They had no hesitancy in stating that the new municipal administration, when it is elected will take up at once the installation of a first class electric plant, the building of water works, sewers and sidewalks, and possibly taking over the telephone system, although in so doing they would have to fight the Bell company. Didsbury is evidently going to be a live and progressive town.

Hamar Greenwood

Liberal Member for York, England, Will Visit Edmonton on Sunday

Hamar Greenwood, the Liberal member for York, England, who is touring Canada, writes Hon. C. W. Cross, from Vancouver that he will visit Edmonton on Sunday next, September 30. The letter is in the nature of a personal communication, Mr. Cross having been a classmate of Greenwood's at the University in Toronto.

Greenwood is probably the one member of the nine Canadians in the Imperial House who has won greatest fame for his oratory and debating abilities. He is at present making a tour of Canada, as he says, to refresh himself with Western ideas, and is this week on the coast, where he is seeing the sights along with "Billy" Maclean of the Toronto World, and a secretary of Joe Chamberlain's. Greenwood does not state in his letter whether or not Maclean and the secretary are coming to Edmonton. From here he will go back to Winnipeg on his way to the east and the old country.

The Calgary Strike

(Bulletin Special)

Word was received in the city today that a general building strike has been called in Calgary, mechanics in all other branches of the building trade being called out in support of the demands of the carpenters. Local plumbers reported this morning that their men working in Calgary have been called off. The carpenters in Calgary have been out for two weeks in a demand for higher wages and the present action is part of a general sympathetic movement by the allied branches of the building trades' council.

St. Albert People Rejoiced by the
Realization of the Hopes of
Years

(Correspondence)
St. Albert, Sept. 24.—At an early hour this morning the Canadian Northern Railway construction train made its way into St. Albert, Mr. Jule Chave having the honor of driving the silver spike.

This quiet hamlet, which has the distinction of being one of the earliest settlements in the Northwest—over fifty years ago since the picturesque spot was selected by the Oblate Fathers to be the capital of the Catholic church in the far west—today its long silence was rudely broken by the most welcome of all sounds—the cars.

It was indeed interesting to hear old reminiscences rehearsed by the many old timers who came to witness the first train cross the Sturgeon river. They recounted their experiences from the days of the buffalo to the present. The marvellous change which had taken place within their own knowledge, fittingly described by words and gesture. From the past the conversation naturally drifted to the future. What place would St. Albert occupy ten years hence? Would it be content to remain as in the past, "One of these little places that have run half up the hill beneath the blazing sun, and there are down to rest as if to say 'I climb no farther, upward, come what may.' No! All were confident that St. Albert had a brighter future than many of her sister towns in Alberta. She was situated in the midst of an agricultural district which could not be equalled for fertility in any part of the world, and now, with communications established with the outside, nothing could prevent her from becoming one of Alberta's most enterprising commercial centres.

Ranfurly Briefs.

Gas and Oil Believed to Exist in the Vicinity. Real Estate Advancing Rapidly

(Correspondence)

Ranfurly, Sept. 27.—Ranfurly is on the eve of a great industrial upheaval. We have known for some time that coal existed in the neighboring hills in paying quantities. But not until recently has it even been suggested that the place abounded in other mineral substances of great commercial value. Recently however, experts have been looking over the territory, and from general natural evidences, have come to the conclusion that when investigated not only coal, but gas and oil will be found in large quantities. Gold was discovered on Friday in the gravel pit just east of the town.

Real estate is rapidly increasing in value. Some deals are pending just now which involve large sums. Yet there are large tracts of land close by to be had at reasonable prices. Much vacant land is still to be had between Ranfurly and the Saskatchewan River to the north. This land is very fertile, and adapted to either grazing or agricultural purposes. Some of it is timbered, but the greater part is open prairie. This is a great opportunity for intending settlers, and, judging from the number of prospectors looking over this land during the past two weeks, it will be rapidly settled.

The town is alive to the conditions, and are prepared to take care of new comers or prospectors in every particular. We now have wire connections with the outside world.

The Ranfurly hotel, under the new management, is becoming very popular. Friday evening of the 15th inst., a very pleasant and enjoyable party was participated in by the lovers of the light fantastic; refreshments were served.

A very pleasant and profitable time was had on Friday evening, the 21st. Mr. Smith, the student missionary, doing work in this field for the past four months, under the Presbyterian board, and Mr. Bradley, under the Methodist board, assisted by local talent, gave a "Social Temperance." The program consisted of addresses, songs, solos, music and refreshments. Before leaving the hall, Mr. Smith suggested a literary society be organized for the benefit of the young people during the long winter months.

Acting on his suggestion, a committee of five were appointed to arrange a working plan, when the organization will be effected.

Mr. Smith leaves in about two weeks for Winnipeg, where he will attend college.

Mr. Bradley will leave about the same time for Toronto, when he also will take up a further course of study. The young men have the good will and best wishes of a host of friends in this field.

R. Hockley of Edmonton visited Dr. Steele Friday evening.

Reld Bros. have just received a car load of flour and feed from the Alberta Milling Co., Edmonton.

T. W. Thompson unloaded a car load of coal one day last week.

Dr. Hall, W. Gardner, G. Armstrong, and I. Reld, of Edmonton, were in town last week, looking over land.

Mr. Robert Blackwood, of Huntington, Que., is visiting a few days with Mr. J. McNaughton.

Mr. Bonnell commenced threshing operations on the farm of B. Blais this week.

ARMY IMMIGRANTS SATISFIED

(Bulletin Special)

Ottawa, Sept. 26.—Col. Lamb of the Salvation Army, who is in Canada investigating the condition of immigrants the Army sent out, had an interview with Mr. Oliver today and said that all were satisfied and none wanted to return. He expected that during the coming year the army would send out thirty thousand.

An inquest into the Gilmour fire started tonight. It was shown that there were fire escapes but some could not be reached because they opened outside private room doors which were locked.

BIG PROVINCIAL FAIR

WANTS THE CANAL

(Bulletin Special)

Toronto, Ont., Sept. 27.—John Langstaff, an enthusiastic advocate of the ship canal scheme between Georgian Bay and Lake Ontario, has come forward with a proposition that the government should make a bid for capitalists to undertake this enterprise and states that the president of the board of Trade P. "The Last West"

New Magazine Will be Started in Winnipeg

(Bulletin Special)

Chicago, Sept. 25.—Theodore M. Knapp, secretary of the Western Canadian Immigration Association, gave out the following statement today in Chicago, regarding the new Canadian monthly magazine, "The Last West," which is to be published in Winnipeg and which has the material support of the association:

"At the last meeting of the executive committee of the Western Canadian Immigration Association, it was voted to encourage in some definite way the publication of a monthly magazine devoted to the Canadian Prairie Provinces. It was the wish of the executive committee that this magazine be something more than an exploitation publication, although the exploitation of Western Canada was to be its real motive. In other words, the committee was anxious to secure a magazine that would acquire a general circulation on its own merits, which would necessitate the paying of considerable attention to its literary side.

"The magazine was to be published in Winnipeg, and as the owners and publishers of the Farmers' Advocate were in sympathy with the project, an arrangement was entered into with them by which they were to take over the publication of the periodical. The name chosen was "The Last West," and the date set for the first issue is October 15. Herbert Vanderhoof, a well known American newspaper writer, who has been in the employ of the Association since June 1st, and who conducted through Western Canada the Press Women and Washington, D.C., correspondents this summer, is to be in editorial charge of "The Last West."

"A regular contributor and a member of the editorial staff is Miss Agnes Deans Cameron, who is best known through her contribution to the Century Magazine, Everybody's, Colliers, and The World's Work.

"Naturally the principal consideration of the association is the building up of a circulation in the United States, as it is through these readers that we intend to reach families which are interested or may become interested in Western Canada with the idea of improving their condition north of the 49th parallel. On the other hand, it is essential that Canadians generally, and Western Canadians in particular, support the magazine and look upon it as their organ, as it is. We have in our initial number an article unique in paper, an article with thirty authors; every prominent newspaper woman in Canada has contributed to it. The interest centring around this one story alone should ensure its being read in every corner of the Dominion. This is illustrated by photographs of thirty representative members of the Canadian Women's Press Club.

"Cy Warman tells in his own inimitable way, the story of Canada's 'Citizens in the Rough,' Captain Clive Phillips-Wolley, P. M. G. 3, the well-known novelist and contributor to the London Times, has a vigorous article on 'Labor in the West,' a topic on which he speaks with authority. Miss Agnes Campbell Purves has a bright sketch, 'Winnipeg, the City of the Plains.' There will be practical articles on 'Industrial Opening of the West,' 'The Crop of 1906,' and 'The Immigration for the Year.'

"The fiction side of the publication is contributed by Margaret McKenna, Agnes Deans Cameron, and Phillip Payne, author of the American political novel, 'The Mills of Man,' which was one of the successes of 1904.

"The editorial matter of the magazine has been prepared with vigor and originality and should on its merits claim a place of its own.

"In many ways 'The Last West' begins life under very auspicious circumstances, as it will have a large circulation in the United States with its initial number."

Is Your Time Worth Money?

Your employees tell you nothing but time for the salary you pay them.

The more work you can get from your employees, the less their time costs you—any business man knows that.

Every cent saved in time is pure profit.

If you can make your employees realize that your balance sheets will show it at the end of the year.

When your heads of departments have a systematic record in black and white before them of what each man does, it will not take them long to realize which employees are making money for the firm and which are not.

You can bring about such a condition of affairs if you will let us show you that what we know is a fact.

Business Systems will so lessen the time consumed with the books that your office staff will have twice their present capacity.

Business Systems will point out to you the men who are making good in your factory—no guess work about it.

Steam Shovel Work

Taylor Construction Co. Making Fast

Time on Fifth Street Lateral

Sewer

The Taylor Construction company has commenced work with the steam shovel and a big gang of men laying the sewer on Fifth street. This part of the work is tributary to the main trunk sewer and cannot be used until the trunk sewer is completed, but by that time all the laterals will probably be completed and ready to connect up with the main sewer. The steam shovel is doing great work on the trenching and will keep the gang laying pipe very busy to follow up the machine.

A LESSON OF EMPIRE

A detachment of United States marines were landed in Cuba last week and Secretary Taft who has been representing the Government of the United States in an endeavor to terminate the rebellion and restore order appears to have given the belligerents to understand that if necessary this detachment would be followed by others. Theoretically this was supposed to mean that the United States would protect its own people and other foreign residents in the island. In reality it was intended as a hint to the insurgents and probably the island government also that they would consult their own welfare by abandoning the warlike role and settling their troubles amicably. At any event it was so interpreted, the government declared an armistice, the rebels suspended hostilities and since then the only war has been one of words.

After all this was just what might have been and was expected. The people of the United States have immense interests in Cuba and of many kinds. These interests could and probably would be damaged quite as much by protracted warfare as by overt acts of violence. Whether or not the property of Americans has been intentionally destroyed the protraction of the struggle would have paralyzed commerce and thus perhaps more slowly but quite as surely have destroyed the conditions which make the property valuable. That the government of the United States would permit this indirect destruction was not to be supposed. A second cause for interference was the Monroe doctrine. The head of the United States government is far too astute a man not to understand that the easiest way of avoiding a clash with some European power was to make it unnecessary for any such power to take measures to protect its subjects resident in Cuba. Yet another reason was the paternal relationship in which the government of the United States stands to that of Cuba. Republican institutions were established in the island through the instrumentality of the United States that all men likely that the founder would stand idly by while these were being upset by the political intrigues of a people as yet poorly schooled in their use. This intervention, accompanied at least by suggested coercion is the triumph of the hard sense of a people over a cherished theory. It is a theory imbedded in the constitution of the United States that all men are born equal and endowed with certain inalienable rights and entitled to life, liberty and the pursuit of happiness. Construed in its broadest sense this would preclude outside interference in the internal affairs of any nation even if the people of that nation should number among their inalienable rights the privilege of murdering each other in the name of what they considered liberty. Practically the people of the United States understand that all men and all races are not born equal, that the rights inherent in manhood do not include the privilege of sinking manhood into brutality and that crimes should not be tolerated because they are committed in the cause of a mis-sense of the people of the United States taken notion of freedom. Broadly the tells them it is better for the Cubans that they should be guided into the paths of peace and justice even by a show of force than permitted to destroy themselves through a fear of trespassing on their theoretical liberty to do so if they please.

FINANCING ELECTRIC LIGHT EXTENSIONS

Alderman Calhoun brought up his motion on Tuesday evening that the cost of extensions of municipal enterprises be made as capital expenditures instead of being paid for from the revenues of the enterprises. The motion arose from a proposal to make an expenditure of this kind from the funds of the electric lighting system and after some discussion was referred for consideration to a committee.

It appears that the electric lighting system is run as a separate enterprise rather than as one of several branches of the city's business. The debentures are issued not as liabilities of the city but as encumbrances of the lighting plant itself and from the revenues of the system a sum is set aside annually to cover the interest and a sinking fund sufficient to retire the debentures themselves on maturity, together with a sum to cover depreciation of the plant.

This considerably simplifies matters so far as the light system is concerned. The patrons of the plant are now paying for the plant itself, paying the cost of operation and accumulating funds to replace the worn-out machinery. If the system continues to be treated as a separate enterprise they will eventually pay for the extensions also and the motion of Alderman Calhoun amounts to giving them the privilege of doing so by small payments extending over a number of years, instead of demanding the entire cost from them at present.

It should not take the committee long to decide that the proposal is a good one so far at least as the electric lighting system is concerned. It is the plan on which the present plant has been financed and there has been no reason advanced for abandoning this plan save that it has been so successful as to leave a surplus large enough to make its abandonment possible. If the patrons of the system are today able to maintain the cost of operation, establish a sinking fund to pay for the plant when the debentures become due and lay aside a sum large enough to replace the machinery when it is worn out, it is because the cost of the plant and the replacement fund have been spread over a long term of years. And if besides doing so the patrons can roll up a handsome surplus this is surely the best evidence that the plan of financing is a good one and the poorest possible reason why it should be abandoned. If the extensions are made as the demand arises for service and the same plan of financing be followed in making the extensions there is every reason to suppose the operation of the enlarged plant will be quite as satisfactory financially as that of the present one.

Moreover it is an established principle that the cost of installing a public utility should not be collected entirely in the present, but extended over a term of years, that those who follow after and reap quite as much benefit from the enterprise should bear a proportionate share. This principle has been admitted in the installation of all civic utilities in the city, the lighting system included. Expenditures for enlarging the capacity of a plant are essentially of the same nature as expenditures for installing a new plant and there is no reason why the principle admitted in the extension. The patrons of coming years will reap quite as much benefit proportionately to the present patrons from the extensions as from the original plant and if right that they should bear with us the cost of the latter it must be also right that they share the expense of the former. This, of course, is on the assumption that the committee approves of continuing the plan of treating the lighting system as a separate enterprise standing on its own merits and responsible for its own cost though the arguments are equally sound should it be considered desirable to change the system, make the city directly responsible for the extensions and thus secure the direct personal interest of every ratepayer in the success of the enterprise. To consider such change is quite within the scope of the problem submitted to the committee, as is the converse question whether or not the results from the other civic utilities would be more satisfactory if financed on the same plan as the lighting system.

SUFFERING ON THE WHALERS.

Seattle, Wash., Sept. 22.—The steamship Harold Dollar, which carried supplies to the whaling fleet in the Arctic, reached Seattle last night. Thirty-one men of the wrecked whaler Alexander and 15 men from other ships of the fleet were brought down on the vessel. She also brought whalebone valued at \$330,000 from the different ships.

The Dollar met the fleet at Point Barrow and delivered the stores, food-stuffs and coal. The entire fleet, with the exception of the whaler Kenneth, is to return this season unless they are caught by the ice, which was reported to be fast closing in when the Dollar left.

The men who returned on the Dollar tell stories of terrible suffering principally from the lack of food on the different vessels. The men of the whaler Alexander in particular endured great hardships and suffering, having been 13 days in their boats and living on whale blubber during the entire time. The Alexander was wrecked during a fog at Cape Terry, near Banksland, on August 12. The ship sank almost immediately and the crew had to take to the boats with very scanty preparations. When they were picked up by the whaler Herman the men were almost dead. The Herman took them to Point Barrow, where the Dollar picked them up.

News From the Fort

News Items From the Busy Police Town

Fort Saskatchewan, Sept. 23. — The merry hum of the threshing machines may be heard on all sides. Crops are good and there is every evidence of a plentiful harvest.

It is reported operations have begun to market around the new Government deer park in the Beaver Hills district. Mr. Geo. Cranston has the contract for husking the roadway. Fort people hope to have a pleasant summer resort at Elk Park in the near future.

The Fort is to have a number of entertainments this coming season under the name of the "Star Entertainment course." The first, entitled "The Jolly Side of Life," by Mr. Jolly of Joliet, is to be given in the new opera house this evening. As Rev. Mr. Howard has been appointed local representative of this course, good clean, up-to-date entertainments are expected.

Mr. R. Secord and party of friends paid a flying visit to the Fort on Friday.

Two automobile parties from the capital paid flying visits to the Fort on Sunday.

The building of another elevator in the near future is good news to the farmers in this part of Alberta.

Mr. Lecamus, formerly of Paris, France, has invested in quite a lot of property here and is building a fine house on one of the river lots. Mr. Lecamus intends building a brewery in the spring or possibly before then.

One of our most enterprising women has started a free kindergarten in the vacant room of the school house.

Mrs. Forbes and Mrs. Chalmers have been appointed delegates from here to attend the Presbyterian which is to be held in First church, Edmonton, on Friday next. Reports will also be given from several other auxiliaries. This Presbyterian is not intended for officers and delegates only, but for all members who can make it convenient to attend. It is always a sign of a good healthy society when its members are anxious to be at all the meetings that make for the good of the work, and also to come into touch with other societies of the same nature, as much mutual benefit may be derived in this manner.

The Harvey, Simons Co., Ltd., have opened up their new store on Dennis avenue, where they intend to make a specialty of men's furnishings. They will eventually give up their general

merchandise business on Government street.

Two new millinery and two new dressmaking establishments have been opened out here during the last month. Miss Quentin McCoy, A. T. C. M., and Miss Maude Underhill, who are touring the west, are booked to give a concert in the Presbyterian church, on Sept. 26 under the auspices of the choir. A bumper house should greet the ladies.

A Women's Home Missionary Society has been organized in the Presbyterian church, under the name of "The Forbes Auxiliary." Mrs. (Rev.) Forbes is the president, with quite a large membership.

A large flock of cranes and wild geese, possibly two hundred, passed over the Fort today. It was most delightful to watch them in their gyrations, apparently trying to choose a leader before migrating south. Prairie chickens are scarce this year, and, while there has been some good sport, not much game has been bagged.

Count Freilich, Oscar von Bodenhausen and Mr. Fraser, of this town, paid a visit to the capital this week.

Mr. James Graham, of Ross street, has been enlarging his premises, in order to meet the demand of his increasing trade. It is his intention to equip his blacksmith and carriage shops with the latest modern machinery and is also putting in a gasoline engine. When these buildings are finished they will be among the best shops of the kind in Alberta.

Building operations are very brisk here at the present time. Mr. Dubuc's handsome brick residence on Dennis avenue, is about finished, and he has moved in. Mr. J. Harvey's residence is nearing completion. Mr. A. M. Sutherland is also building a brick house on Dennis avenue.

Mr. J. C. Strickland and family have moved into Miss Dwyer's house on Adamson avenue.

Rev. J. McCellan, of Lloydminster, occupied the pulpit in the Presbyterian church on Sunday evening.

Hillsdale Man Killed

Dr. Millen Reported Killed in the Sudbury Wreck Resided at Hillsdale, Alberta

The late "Dr. Millen, of Hillsdale," reported among those killed in the recent railway accident on the Canadian Pacific, near Sudbury, was Dr. W. H. Millen, of Hillsdale, Alta., a settler about twenty miles south east of the city. He was formerly of Essex county, Ont. Dr. Millen moved last spring from South Woodsee, where he had practiced a number of years.

He had been east to attend the funeral of his mother and was returning home, when the accident occurred. Deceased was the eldest son of Thomas Millen, of Cottam, Essex, county, Ont., and was born in 1865. He received his early education in the Essex high school and graduated from the Detroit College of Medicine in 1891. He took his degree of M. D. from Trinity Medical College in 1894. He married Katherine, daughter of the late Archibald McKellar, of Ingersoll, Ont., who survives him with two little daughters. His funeral took place at his old home Cottam, and was the largest ever seen in that section.

Dr. Millen was a man of singular uprightness of character and kindness of disposition. His loss is to be deplored not only by his family but by the community of which he was such a useful member.

VERMILION ITEMS.

Vermilion, Alta., Sept. 25.—The first meeting of the newly elected town council was held last evening; present Mayor Brimacombe, Councilors Cameron, Stephens, Baker, Brown and Macnab. The mayor took the chair and reported five applications for the position of secretary-treasurer. After some discussion it was decided to appoint Mr. Norman Murray, barrister to the post.

The following committees were then formed: Finance, Stephens, Baker and Brown; health, Dr. Ryan, Macnab and Cameron; public works, Baker, Macnab and the mayor; fire, water and light, Macnab, Brown and Ryan. It was decided that the C.N.R. officials be interviewed with reference to the widening of the crossing in the west end of the town, and also with reference to the use of the water tank for purposes of fire protection.

Prices are to be obtained for the supply of hose, hose-reels, etc., so that the town may now look forward to having some much needed protection against fire. We hear that the Brunswick hotel has again changed hands, Mr. W. H. McBeth, being the purchaser.

NOVA SCOTIA FIRE.

Amherst, N.S., Sept. 25.—Sillicker and company's wood working plant and several residences in the neighborhood were destroyed by fire today entailing a loss of seventy-five thousand dollars, one-third covered by insurance. The blaze started at noon and gained good headway before the brigade arrived. It was only after a hard struggle that it was finally brought under control.

SIR THOMAS GROWS GENEROUS.

Winnipeg, Sept. 25.—Sir Thomas Shaughnessy president of the Canadian Pacific Railway Co., and Wm. Whyte, second vice-president, have announced to Mayor Sharpe and members of the city council that the company would voluntarily and without any consideration from the city give \$20,000 per annum for ten years or \$10,000 per annum for twenty years toward the securing of a water supply for Winnipeg.

gious diseases. There are 40,000 school children in Montreal.

QUEBEC CELEBRATION.

Quebec, Que., Sept. 26.—The tricentennial of the foundation of Quebec will be made the occasion of much festivity in 1908. The executive committee in charge held a meeting last night and appointed a special committee. A petition is to be submitted at Ottawa asking that the festivities be placed under the auspices of the Dominion and that July 3rd, 1908 be proclaimed a national holiday. A feature of the festivities will be the historical and fine art exhibition in which other countries will be asked to take part.

EMERSON HOTEL BURNED

Emerson, Man., Sept. 26.—Fire completely destroyed the Strathcona hotel here, early this morning. The blaze started about 1 a.m. in the north side of the house and with a strong wind blowing the building was soon a mass of flames. The fire spread with lightning rapidity and most of the inmates had only time to escape in their night apparel. The furniture belonging to D. Forrester, owner of the building, was all saved owing to the townspeople turning out and giving a hand. The south-east part of the town was in great danger for a while owing to large burning cinders which were carried for miles. The fire is believed to be of incendiary origin. The building was valued at thirty thousand and was not insured, making the loss an extremely severe one for the proprietor. Mr. Geo. Durand had been manager of the hotel since the license was granted to the house, which was one of the most up-to-date hosteleries in Manitoba. The building had just been refitted about two years ago and was formerly known as the Carney house, having been erected in the boom days. Manager Durand was a former resident of Strathcona.

DIED FROM LACK OF NOURISHMENT.

St. Thomas, Sept. 26.—The coroner's jury on the death of the infant daughter of Mrs. Cora Stonehouse which died in the Elgin County Jail where the grandmother is confined awaiting trial for throwing the child into an outhouse last evening after its birth, met last evening and brought in a verdict that the child died from lack of proper nourishment owing to the mother being removed from the hospital to the jail.

CONFESSED TO ACCIDENTAL SHOOTING

St. Catharines, Sept. 26.—The mystery surrounding the death of Clifford Lidycoat, found dead in the woods near the road last Friday was cleared up at the coroner's inquest in Thorold last night when James Williamson admitted that he had accidentally shot Lidycoat about noon of that day and stated he had said deceased had kicked the hammer of the gun and shot himself simply because he feared to tell the real facts.

IMPORTING SCOTS

Quebec, Que., Sept. 26.—O'Brien and Mulroney contractors for the eastern section of the Grand Trunk Pacific from La Tuque to the Quebec bridge, are importing Scotch laborers to work on the new road, and yesterday 15 brave sons of Scotland who arrived here by the steamer Athenia left by special train to commence operations next

out to be employed on the same work. These immigrants are a stalwart aggregation of Scotchmen who intend to settle in Canada and determined to gain experience by working on the railroad before deciding upon the place to locate on farm lands.

London, Sept. 26.—The proceedings of the Aberdeen University quarter centenary commenced when the guests and delegates were welcomed by Lord Strathcona and Mr. Andrew Carnegie and were warmly cheered as they passed through the streets.

RELIGION IN CANADA

London, Sept. 26.—Rev. J. B. Mullins, secretary of the religious and continental church society has just returned from Canada. Interviewed he said that he was impressed with the religious inclinations of the people in the east. In the north-west the case was different, but the society had devised a scheme for assisting the people in the different districts to support a clergyman and provide churches, parsonages and teachers' training establishments.

HARVESTERS RETURNS

Montreal, Que., Sept. 26.—The final figures for the western harvest excursion season show that 23,600 laborers went west, many more than ever went before. This means that considerably over six hundred thousand dollars was paid directly into the treasuries of Canada merely to get to the west to engage in the harvest operations and back east again. Last year only 16,558 men were carried. This increase for the present year is the more marked in that every province in eastern Canada shows a proportionate growth over previous figures.

NICH MAY LIVE IN FRANCE

(Bulletin Special)

Paris, Sept. 27.—A despatch to the Echo de Paris from Balitz, on the Bay of Biscay, says that quarters are being prepared there for Emperor Nicholas, and the Russian Imperial family, who will soon join the Grand Duke Alexander Michaelovitch and his family, who recently arrived at Balitz.

BATTLEFORD FAIR.

Arrangements are now under way by the citizens of Battleford to have one of the most successful race meetings and fairs ever held in the West. Residents of that town subscribed \$1,500.00 towards paying the purses at the meeting, and an unusual interest has been taken in the event by everyone in Battleford and vicinity. The date set is October 9th, and arrangements have now been completed whereby the Canadian Northern will grant excursion rates from as far west as Vermilion, and east as far as Warman, the rate being a fare and a third, and good to go on the 9th and return on the 10th and 11th. A passenger train will convey the visitors to the old town of Battleford on the arrival at North Battleford, of each train from the west and east, on these days, the fare on the spur line being 25 cents. The following is a list of the racing events that will be held on that day:

Free for all—Purse \$300; \$200 and \$100.

Trades and Labor

Meeting of Labor Men in the British Columbia Capital

Mr. J. A. McKinney returned Tuesday night from Victoria, where he was attending the Trades and Labor Congress. Eighty delegates assembled representing four hundred unions and 25,000 members. The convention occupied five days and was in every way successful. Mr. McKinney is unqualified in his praise of the hospitality of the people of Victoria. The freedom of the city was conferred upon the delegates, and they were taken upon the Sound to Cherramus and Crofton to visit the copper smelting works.

The most important result of the convention was the decision to form a labor party in Canada, to work upon the lines that have been so successful in the old country. This policy was warmly supported. A number of Socialistic delegates were present and pressed hard for the adoption of an out and out Socialistic program and a warm debate resulted. The majority of the delegates decided to adhere to the more cautious and moderate program of trade unionism pure and simple. The resolution to adopt the Socialistic platform was lost by a vote of 68 to 7.

The old officers were elected again. A. Verville, M.P., Montreal, president; James Simpson, Toronto, vice-president; and P. M. Draper, Ottawa, secretary-treasurer.

Other delegates from Edmonton were Messrs. Harry Nash, and A. J. Hemp, fort.

ALBERTA SETTLERS DOING WELL.

Dr. Saunders who recently toured the West said to the Winnipeg Free Press: "I have been south to Lethbridge where we have started an experimental farm for the purpose of testing irrigation, and also testing the best methods of dry farming. We are also starting a farm at Lacombe, and during my journey I have gone over the country from Calgary to Edmonton and from Edmonton to Lloydminster, Battleford, Warman, Humboldt and North Prince Albert, then down to Melfort, then back to Saskatoon and Indian Head. From most of the points I took long drives through the country, so as to see some of the farmers of different types in each territory. I spent some time among the Galicians and in the English colony at Lloydminster, and I saw settlers of all descriptions in the course of my journey.

"The crops everywhere seemed to be of the best. Every section seemed quite satisfied with the results; there had been no disappointment in the way of frost or in lack of time for perfecting the grain. The harvest has come in about a week or ten days earlier than usual, and the weather has been on the whole excellent for harvest purposes and for threshing. The threshing is pretty well advanced now in almost every district; probably three or four weeks will about see it completed if the weather keeps fine.

"The quantity of grain grown is very large in the north country. Oats take the pre-eminence, wheat is largely grown, and the crop is increasing every year. I found the Galicians in their settlements making very good progress. They do not make as rapid progress as people more conversant with the ways of the country, as it takes them some time to get into the rapid methods we have in this country of bringing the land under cultivation. But wherever I saw any that had been five or six years in the country, they had made very good progress; and those who had been there only three or four years had their farms in fair order, and had enough in the way of products, stock, etc., to enable them to live well. It is really marvellous how these people, so unused to our methods of living, and unused to agricultural operations, fit themselves into their respective niches in the country and do their duty as good citizens.

LOCATED FIVE PASSES.

New Westminster, Sept. 24—David Deane arrived in the city yesterday. Mr. Deane has been almost out of civilization since April last with a Grand Trunk survey party operating in the Barkerville district, under the supervision of Engineer Crichtlow. The country through which they were travelling was nearly all heavily timbered, and they had to force their trail through it by means of their axes. Part of the time they were at the headwaters of Father Fraser, where it springs as a small stream from a pass fed by two little lakes.

The country is a hunter's paradise, and there are a considerable number of white and Indian trappers located in the district who spend all their time in pursuit of game. Bears,

moose, elk, caribou, lynx, mink and other fur-bearing animals are plentiful, and not so scared of the presence of human beings as they ought to be for their safety. Last year at Fort St. George, near where the party was encamped for a portion of the time, over \$11,000 worth of pelts were handled.

While near Kanton the snow was deep and had to be waded through by the surveyors. The party was ten days' journey beyond Fort St. George and located five new passes, all of which have never before been explored by white men.

In the Queanell district some rich mining claims have been recently staked, and Ashcroft is full of miners and supplies awaiting a chance to get into the interior. Teams and supplies are going in as fast as they can be rushed out. A man named A. G. Hamilton has staked out a townsite near Fort St. George, and has established a general store at Giscome, where he handles a full line of miners' and trappers' supplies.

Prices are somewhat fierce up there and it is no place for a poor man to go to at present. During the past summer Mr. Deane saw flour sold at \$8 a sack and tobacco at \$2 a plug. Oats are 8c a pound and hay \$70 a ton.

A number of G. T. P. survey parties are pushing along the work of road seeking, and are scattered from Edmonton to the coast. Coleman's party is operating in the Nechaco district. Orde and his staff are pushing through in the vicinity of Pine Pass. Sprague is operating in the country west of Barkerville. Rolston, who is a cousin of Chief Constable Spain, is busy in the Smoky river country.

The party with which Mr. Deane has been travelling is preparing to winter on the banks of the Big Salmon river.

SEED GROWERS' ASSOCIATION.

Winnipeg Free Press: L. H. Newman, B.S.A., of Ottawa, the secretary of the Canadian Seed Growers' association, is in the city and will make his headquarters at the Empire during his visit. Mr. Newman is on his return trip to Ottawa after an official trip through Manitoba, Saskatchewan and Alberta, having covered during his trip about 6,000 miles of railway. He is much impressed with the remarkable development which is going on in the new provinces, and in summing up his observations of the trip Mr. Newman said in part:

"It is much easier to tell one hundred people what they should do, than it is to induce one person to do it. This is one of the many objects for which the Canadian Seed Growers' association was organized. This organization seeks to bring about better crops, by encouraging the production of better seed and consequently better farming. The inducements to growers lie in the individual assistance which the association offers in crop production, the direction it gives to members in their endeavor to breed up good strains of varieties suited to the various districts, and the publicity it gives their surplus product. It assists to a large extent in the dissemination of this pure bred or pedigreed seed throughout the country and herein lies great power for well doing. If by any such means the sowing of foot seed on new or other lands can be prevented a great public service will be rendered.

"The problem of securing seed, suitable varieties which are free from admixtures of other varieties, is a serious one. At the present time, for instance, our common Red Fife wheat is largely mixed with a bearded variety, and with other bald varieties of poor quality, but which are, of course, less noticeable. This is a matter which must be handled by the grower on his own farm, and which can best be accomplished by means of the system adopted by our association and dissemination in printed form.

"We have at present about 300 intelligent farmers throughout all parts of Canada actively engaged in the work of crop improvement by means of this system. Those who have been associated with the work for some years are most enthusiastic over the results of their endeavors and can find no better argument in favor of the system than that offered by these intelligent, observant growers. There is, however, a great need for more workers. The demand for pure seed of good quality is steadily increasing, thereby offering an opportunity for the profitable carrying on of this most interesting work.

"As to the growing of winter wheat in Alberta a good deal has already been said. The partial failure in this year's crop has proven a valuable lesson in demonstrating the necessity of thorough cultivation prior to seeding. Seeding should be done as a rule during the latter part of July or the first of August, the seed-bag being in good condition as regards physical texture and soil moisture. To insure soil mois-

ture it seems necessary to summer-fallow thoroughly for some months prior to seeding. This was not done thoroughly enough last season, and this fact, together with the fact that seeding was carried well up to December, explains in a large measure the failure above referred to. This lesson, I am glad to say, has had its effect, the seeding being done about the proper time this year and on a well prepared seed-bed. The sample of Turkey Red wheat, or Alberta red, as it is now pretty generally called, is of much better quality than the original seed brought from Kansas three years ago. So much has it improved under the conditions peculiar to the province, that the Kansas people are in turn beginning to look to Alberta for their seed. The Albertan seed breeders are therefore looking to establish a healthy trade in pure bred seed with their American neighbors.

THE Oxford Hot Water Boiler is built to use absolutely all the heat generated in the fire-pot.

The inclining walls of the fire-pot expose great surface to the direct heat of the fire. The first section is greater in depth than the other sections, and the flues of this section are bell-shaped, against which the heat rays sharply impinge, so that a greater body of water gets the direct effect of the fire.

Oxford Hot Water Boiler

The entire boiler is steel and iron. The joints are made with steel push nipples, which are absolutely indestructible—no rubber washers.

LOCAL ITEMS

—Vegreville fair today and tomorrow.

—The Union Bank will be open for business on Saturday evenings from 7 to 9 p.m.

—Larue & Picard began building operations on a new block immediately west of the Sandison Block this morning. O. Merault is the contractor.

—Dr. Griffith will speak to the Young People's Society of Queen's avenue Presbyterian church next Monday evening on his experiences in China during the Boxer outrages.

—Mrs. Griffith, wife of Dr. Griffith, returned missionary from Honan, China, gave an interesting and instructive talk to the ladies of Queen's avenue Presbyterian church yesterday afternoon.

J. H. Morris, president of the exhibition association has received a letter from the Strathcona exhibition association, requesting the storekeepers of Edmonton to close their places of business on Tuesday, October 2nd at 1 o'clock on account of their exhibition.

—Mayor May requests the merchants and business men of the city to decorate their stores and places of business on the occasion of the visit of the Manufacturers' Association. Make the city look bright.

—The building committee of Queen's avenue Presbyterian church held a meeting last night to open the tenders for the new manse. The committee awarded the contract to Cameron Anderson who will begin at once. The manse will be built beside the church.

—The C.P.R. announces a rate of 26¢ from Strathcona to New Westminster or Vancouver in connection with the provincial exhibition at New Westminster. Tickets on sale Sept. 28 to October 3 and good to return until October 11th. Tickets at correspondingly low rates from other Alberta points. For further particulars apply at the local ticket office.

—The Protestant public school board have decided to begin the new school in the east end on Jasper avenue extension this fall. Moses Dussault has the excavation of the basement yesterday. Nothing further will be done this season. It is the intention of the board to have basement ready for building as soon as the building season opens next spring.

—Mr. A. Mitchell, chief weed inspector of the province, arrived home last night. He attended the fairs at Magrath, Cardston, Raymond and was as far east as Moose Jaw. One of the interesting items of observation was a wild apple seedling on the railway track at Wren. The seedling was fifteen inches long.

—Percy Glass and Wm. Powers, of the Bulletin staff left yesterday afternoon with the Strathcona lacrosse team for the Coast. They will play with the team in Vancouver, Mount Pleasant, New Westminster, Revelstoke, Nelson and Calgary.

—Now that the Canadian Pacific railway has opened up a city ticket office centrally located, the public will find it much more convenient to purchase tickets in Edmonton, thus avoiding the possibility of being hurried for time in attending to the checking of baggage in Strathcona. This applies to local as well as through business. Get your tickets at new C.P.R. offices.

—Calgary Albertan:—William Sherring, the crack runner, winner of the Marathon road race at Athens, passed through the city yesterday on his way east. Sherring told the Albertan he was returning from Vancouver where he had been giving exhibitions. Previous to that the famous runner was three days in Winnipeg at the beginning of last week, taking part in the championship of western Canada at the Arena.

—The police have discovered a gay cat gang of young boys in the west end who are becoming too familiar with their neighbors' chicken roosts. It is said a number of chickens have been stolen and last night the police caught the young culprits red-handed. They were going to take their booty to Strathcona and dispose of it there to avoid suspicion. The police have several names. Some of the boys have been playing truant, and these juvenile conspiracies are a result.

—At noon yesterday the wedding took place at the home of the bride's father, Third street of Mr. H. W. B. Douglas and Miss Marion Lockhart. The ceremony was performed by Rev. Jas. Douglas, father of the groom. A number of relatives and immediate friends were present. The bridesmaid was Miss Edie Lockhart and the groomsmen, Mr. J. Mac Edwards. Numerous presents testified to the esteem in which the contracting parties are held. Mr. and Mrs. Douglas left on the C. & E. afternoon train for the Okanagan.

—A meeting will be held in the First Presbyterian church Friday next at 2:30 p.m. for the purpose of forming a Presbyterian Home Mission Society. Delegates from the different Auxiliaries will be present. Miss Robinson, the travelling secretary, will organize the Presbyterian and will address the meeting. Tea will be served in the basement of the church from six to seven. All the ladies interested in home mission work are requested to be present. After the serving of tea a meeting will be held in the church at which the Rev. Mr. Mitchell and Mr. Broadfoot will deliver addresses on Home Mission Topics. A musical program will also be provided.

—On Tuesday evening, Oct. 2nd at 7 p.m. the Alberta College sight-singing evening school will begin. The course includes sight-singing, solfège, ear training and a solid foundation in the theory of the work. Two full hours weekly will be given the students in these evening classes. The rates are \$3.00 per term. The above subjects which in themselves constitute a broad musical education, combined with the double time and lower rates, should enable all of attaining that which is recognized as the firmest foundation by all eminent musicians.

SOCIAL AND PERSONAL

Mr. Jas. Lander went east on the C. N. R. last night.

IS LIFE WORTH THE LIVING?

It would be if you had a summer home at WHITE WHALE BEACH. Remember that this property should be the choice of all, as it was the first selection made. It was the first that was surveyed. It was the first that took the eye of experienced judges of such property. See or write us for particulars.
